2 Much 2 Lose in Grady County

On January 18th, 2017, and January 25th, 2017, Red Rock Regional Prevention Coordinator (RPC) partnered with the ABLE Commission to provide a 2Much 2Lose training for Chickasha Police Department and Grady County Sheriff's Office at the Canadian Valley Technology Center in Chickasha.

2 Much 2 Lose is a statewide program funded by the Oklahoma Department of Mental Health and Substance Abuse Services that targets communities throughout the state. It aims to decrease underage drinking and related social problems, decrease youth access to alcohol through retail and social sources, increase community-level support for environmental change, and increase youth-driven prevention activities. 2M2L's comprehensive plan includes law enforcement training and technical assistance, community mobilization, strategic partnership development, youth leadership, alcohol retailer training, interagency collaboration and media advocacy.

2M2L law enforcement and community trainings are provided all over the state. The training provides an in-depth look at environmental prevention strategies to reduce underage drinking and adult high risk drinking. It offers specialized instruction for both law enforcement agencies and community members. The training is free of charge for participants and offers CLEET hours for law enforcement. The RPC would like to thank Chickasha Police Department and Grady County Sheriff's Office for participating in the 2M2L training and their continued partnership enforcing underage drinking prevention in Grady County.

Red Rock RPC's Mission is to encourage individual responsibility, positive behavior, and personal growth; strengthen families and communities; promote a drug-free society through education, training, prevention, research, advocacy, and environmental strategies. Red Rock RPC is funded through the Oklahoma Department of Mental Health and Substance Abuse Services. For more information on Red Rock RPC please contact Lauren Greenfield at 405-422-8873 or visit www.redrockrpc.com.
