Keep Your Medications Safely Stored and Locked this Holiday season

About 60,000 young children end up in emergency rooms each year because they got into medicines while an adult wasn't looking. These emergency visits can be prevented by always putting every medicine up and away and out of children's reach and sight every time you use it.

Protect your children. Here's how:

- Put medicines up and away and out of children's reach and sight.
- Put medicines away every time.
- Make sure the safety cap is locked.
- Teach your children about medicine safety.
- Tell your guests about medicine safety.
 - Be prepared in case of an emergency.
