December 21, 2012

Responsible Beverage Service and Sales Training conducted at Lucille's Roadhouse.

The Red Rock Regional Prevention Coordinator (RPC) partnered with the ABLE commission to conduct a Responsible Beverage Service and Sales training on December 9th, 2012. The training was provided to employees of Lucille's Roadhouse and other Fast Lane Stores in Weatherford.

RBSS was developed through the ABLE Commission and the Oklahoma State Department of Mental Health and Substance Abuse. The goal of this evidence based training is to provide store clerks, servers, bartenders, and management of establishments that serve alcohol with the basic knowledge and skills to practice responsible alcohol sales and services. RBSS trainings will be conducted across the state. Red Rock Regional Prevention Coordinator will be hosting them quarterly for free! If you are interested in providing a RBSS training to your staff or developing a policy to make the training mandatory, please contact the Red Rock Regional Prevention Coordinator (RPC) at (580)323-9736.
