National Drug & Alcohol Facts Week

National Drug & Alcohol Facts Week (NDFW) will take place the week of January 22nd, 2019 through January 27th, 2019. National Drug Facts Week was launched in 2010 by the National Institute on Drug Abuse (NIDA), which is part of the National Institute of Health. It is an annual health observance week for teens to shatter the myths about drugs and drug abuse. Communities, schools, and organizations are joining forces with NIDA to encourage teens to get the facts through community-based events and activities that focus on the science behind drug abuse.

Drug Facts Chat Day will be on January 24th, 2019, during National Drug Facts Week. It is an annual live online chat held between high school students and NIDA scientists. Students from around the country ask the expert scientists questions they most want the answers to about drugs and drug abuse, including drug effects, how to help friends or family that are abusing drugs, and what causes addiction. To register for the chat day, or for more information about National Drug Facts Week please visit teens.drugabuse.gov.
